

OneRIP M750 System

Print Controller for the Minolta Di750

The **OneRIP M750 print controller** gives you everything you need to print digitally using your Minolta Di750 digital copier.

With OneRIP, you get fast RIPing and output at rated engine speed, all on a standard Windows PC. And unlike other controllers, OneRIP M750 supports scanning and all of the copier's finishers.

And with OneRIP's unique open architecture, you can add and replace Minolta DiALTA copiers to the System at any time. Connect up to 10 Minolta black & white copiers along with Minolta color copiers for a System that's powerful for one printer or many.

OneRIP

All OneRIP Systems use powerful Dell Workstations

Scanning

Scan to file/email from the Di750 copier.

Finishing Options

Supports all Di750 finishers, including Punch Kit and Cover Inserter.

Page Insertion

Insert pages from different paper trays throughout your document.

Vite™ Variable Data

Print customized documents for personalized customer contact.

Clustering

Group your copiers together to create a fast, reliable printing system.

Scalable

Buy one printer now, and add more as your needs grow.
