Cyclone Force

CANON CLC RANGE

With the focus on flexibility, the new Cyclone Force transforms the Canon CLC1100 series into a formidable colour printing solution. Combining high productivity, versatility and extended colour capabilities, Cyclone technology gives corporate users and print shops the accuracy they demand at full rated copier speeds.

With over 80% of all businesses operating in a Windows environment, chances are the Cyclone Force will work for you. The Cyclone Force is supplied with a multitude of colour profiles, so that it interprets and prints data correctly and consistently, time after time. Complementing and enhancing the entire range of Canon CLC 700/800/900 and new Canon CLC1100 range of copiers, it consistently reproduces all of your workload, whatever the peculiarities of the job – spot and special colours included.

This colour freedom is matched by operational flexibility with unique features including "RIP' n' Preview", "RIP' n' Print" and "Perpetual Printing".

These features allow for viewing of each jobs progress, whilst simultaneously RIPPING and printing with immediate output when the next job is ready to go. SmartSort, virtual printers, job accounting & hot folders also provide enhanced efficiency for complex workflows, ensuring production flexibility is fully supported.

With its user-friendly GUI and the ability to "mix and match" Canon CLC copiers and leading LF inkjet printers, the Cyclone Force gives you control of your colour printing at all stages of production, taking flexibility to the ultimate expression.

Cyclone
FORCE

Key benefits:

- **Exceptional speed** – ensures maximum productivity from your copier
- **Precise consistent colour** – extended colour gamut with outstanding PowerPoint printing
- **Fully Featured** - supports duplex, sorter and custom paper sizes
- **Easy to use** – intuitive GUI displaying live previews & preflighting of jobs
- **Upgradeable** – unique capability to drive the CLC900 or CLC1100 series copiers together with inkjet printers

Specifications:

Key features

- Drives CLC copier & LF printers
- Upgrade to CLC1100 copier
- Customisable GUI
- RIP-n-Print™
- Duplex printing
- Instant reprint
- Active preview screens
- Job queue management
- English, German, French GUI
- Spot colour library support
- TWAIN network scanning
- SmartSort electronic collation
- PS/TIFF/PDF file downloader
- Job log and job accounting
- Hot folders
- Printer configuration option lock
- Multiple virtual printer queues
- Easy integration for workflows
- Variable data printing options
- Remote Cyclone GUI viewer
- CMYK separation printing
- Anti-aliasing
- Sorter & stapler support
- Document page insertion
- Custom page size support

Colour management

- IT8 Off-glass calibration chart
- Printable CMYK colour charts
- ICC colour profiles supported
- Support for CIE colour space
- Accurate RGB/LAB colour tables
 - Business graphics
 - sRGB
 - Named spot colour support
- Accurate CMYK printing to SWOP
 - Euroscale
 - Japan standard
- Densitometer support, Xrite DTP-32, 34 & 41

Hardware (minimum)

- Intel Celeron 1.8 GHz Processor
- 256 MB DDR SDRAM
- 40 GB Ultra DMA-100 Hard Drive
- CD-ROM Drive
- 1.44 Floppy Drive
- Keyboard and Mouse
- 15" Color Monitor
- PCI CLC 1100 Series Interface Board, 4m Cable & USB dongle

Software

- Cyclone manager software
- Cyclone ICC ColorBuilder
- Cyclone calibration software
- Cyclone file & PPD downloader
- Cyclone scanner manager
- Cyclone manager remote view
- Cyclone job log software

System Software

- Microsoft Windows 2000 prof
- AppleTalk printing services
- Microsoft FTP software

Page Description Language

- JAWS Postscript 3

Network connectivity

- Ethernet Auto10/100 Base T
- Appletalk Print Services
- LP/LPR via TCP/IP
- NetBEUI
- Novell 4 Bindery and NDS
- Mac (OSX)
- Windows 95/98/ME and 2000
- Windows NT
- UNIX and LINUX

Device Driver Supplied

- One Canon CLC 700 / 800* / 900 / 950*
- or
- One Canon CLC 1100 / 1120 / 1130 / 1150* / 1160 / 1180*
- *duplex options supported

Upgrade options

- CLC900 to CLC1100 copier series

Canon

- BJ-W 2200 series
- BJ-W 7000/9000 series
- BJ-W 7200/8200 series

HP

- HP 10/20/50 series
- HP1050 series
- Hp5500 series

Epson

- Epson 5000 & 4000 series
- Epson 7600 / 9600 / 10600 series

(See web site for supported devices)

Other Upgrade options

- Digital Proofer Upgrade
- Fidelity Upgrade**
- X-Rite DTP-34
- Windows 2000 Server

**fidelity option requires hardware upgrade
